

Step into the future.

Cushotrac® Poly & Wire-Impregnated Rubber Bolt-To-Shoe Track Pads

The days of costly downtime and high maintenance expense are over. **SAVE 30-45%** by reusing your steel grouser shoes and reconditioning your track-driven vehicle with replacement pads.

1" of Solid Wear Material

"STEEL ON STEEL"

Superior SOS Technology (pad steel to grouser shoe steel) eliminates loosening due to vibration, leading to premature pad failure.

Outfit your **MILLING MACHINE** to run like new!

Pad **QUICKLY** and **EASILY** bolts to the grouser shoe!

100% Worklife Guaranteed

No Bond Failures

Reduced Maintenance & Downtime

HUGE Savings

Pads In Stock Ready for Immediate Shipment
