PURCHASE DIRECT FROM SUPERIOR

Superior Cushotrac® Outrigger Pads are known across the industry for their superior durability and no-nonsense **100% worklife guarantee.**

Compared to OEM-supplied outrigger pads and pads made from segmented, recycled rubber strips, Cushotrac® Solid Rubber Outrigger Pads provide longer operational worklife, reduce maintenance and downtime expense and are available at a lower cost.

Poor-quality segmented pads easily become brittle and break apart allowing the exposed angle iron to cause surface damage, sometimes loosening or breaking the attachment bolts.

100% Worklife Guaranteed

No Bond Failures

Reduced Maintenance & Downtime

HUGE Savings

In Stock - Immediate Shipment

THE BEST IN PADS.

Superior Tire & Rubber Corporation is the country's leading manufacturer of high-quality OEM and after-market, polyurethane and rubber track pads for crawlers, dozers, excavators, milling machines, pavers, trenchers and other specialized track-driven heavy equipment, along with solid rubber stabilizer (outrigger) pads for backhoe loaders.

Superior Cushotrac® Track Pads...

setting the industry standard for quality and durability.
