HEAVY DUTY TRACK PAD APPLICATIONS

Excavators

Cranes

Side Booms & Dozers

Five Mounting Designs — Depending on your application, multiple mounting styles are available to provide optimum performance and reduce downtime.

Engineered for the Toughest Applications — Made with premium rubber or polyurethane compounds designed to increase wear-life and traction in heavy duty applications.

Available In Lengths Up To 48" — To fit perfectly on any style grouser shoe and any type of equipment.

American Made — Manufactured in Pennsylvania, USA, our experienced team of engineers combined with our state-of-the-art production & testing facilities ensure you're getting the best product at the best price, directly from the manufacturer.

Rubber CUSHOTRAC® HD™ Mold-On track pads are not recommended for use in standing water or extremely muddy conditions

RUBBER OR POLYURETHANE?

If you're after the most traction on all surfaces, a slightly lower cost and are willing to sacrifice some wear-life...

➤ **GO WITH RUBBER**

If you don't want to have to worry about replacing track pads for a long time and "aren't the gentle type"...

➤ **GO WITH POLYURETHANE**

PREVENT UNEXPECTED LOSS FROM SURFACE DAMAGE

- Reduce/Eliminate Damage to Existing Infrastructure
- Stronger & Longer Lasting Proprietary Polyurethane & Rubber Compounds
- 5 Mounting Designs and Multiple Compounds for Any Application
- Also Available for Trenchers, Pipe/Cable Layers, Drill Rigs, Mining Equipment, Antique Tractors and More

FASTEST CUSTOM TRACK PAD SERVICE
