THE ALWAYS AVAILABLE BOLT-TO-LINK EXCAVATOR TRACK PAD ENGINEERED FOR DEPENDABILITY.

Availability

Can't get stuck at port if it never goes to port. Made in Warren, PA from domestic raw material suppliers†.

Superior Durability

Premium rubber compound for excellent traction, lower surface pressure, and high wear characteristics.

Metal-to-Metal Contact

Bolt holes drilled down to the metal, creating a rigid metal-to-metal contact that prevents slippage.

IT'S JUST A ROADLINER TRACK PAD?

Well, yes it is - but better. Where most roadliner style bolt-to-link track pads fail, the CUSHOTRAC® ReDDiGrip™ excels. Cost, availability, and service. Made in America means no "across the pond" month long voyage. It also means you're not paying for that voyage either. Let's say you get overseas pads in a reasonable time, but now there's a problem. Dealer tells you "tough luck, either no warranty or a new set or replacements are weeks to months out." **That should never happen.** The CUSHOTRAC® ReDDiGrip™ is backed by a 100% Work-Life Guarantee, we hold ourselves accountable and best of all, we answer the phone everytime. Track pads that will most likely outlast the equipment, that can be ordered and delivered in about a week, and don't come with added cost? That's what the CUSHOTRAC® ReDDiGrip™ is all about.

APPLICATIONS

Recommended for:

- ✓ Construction
- ✓ Landscaping
- ✓ Utility
- ✓ General Purpose

Not recommended for:

- ✗ Standing water or swampy conditions
- ✗ Rough/jagged rock or broken concrete
- ✗ Derailment/High-Rail applications

For aggressive applications, we recommend the Polyurethane CUSHOTRAC® ReDDi™. Comes with a 2 Year or 2,000HR Wear-Life Guarantee, whichever comes first.

PREMIUM RUBBER, DOMESTICALLY MADE, IMMEDIATELY AVAILABLE
