

AgriTraxx[®] Midrollers

Industry's BEST and ONLY "No Bond Failure Guarantee*"

Call us about our
3,000 Hour!
guarantee

- From the same supplier that provides top quality products to major OE manufacturers
- Originally developed closely with tractor/track designers to minimize damage & tearing on rubber tracks & guide blocks
- Proven to significantly extend both midroller & track life by most demanding agricultural professionals
- New inventory available for immediate use through our Core Exchange Program

AgriTraxx® Midrollers

Exceed OEM Work-Life

With the industry's number 1 aftermarket provider of new and reconditioned midrollers, idlers and drive wheels

No Bond Failures Guaranteed* -

Proprietary bonding technology that resists heat and shear force to prevent debonding

Longest Wear-life - Polyurethane compound engineered to generate less heat, reduce chunking, and provide the highest cut & tear resistance

Resist the Elements - Unlike rubber, AgriTraxx® Midrollers polyurethane is resistant to Oils, UV, Weak Acids, Diesel Fuel, Moisture and more

Extend Rubber Track Life - Lower operating temperatures reduce rubber track deterioration. Tough polyurethane will not capture debris and score the track.

**OUR WHEELS RUN BETWEEN
35-45 % COOLER THAN OE RUBBER**

Site Proven Performance

Tested on the same tractor, pulling dual pan scrapers

AgriTraxx® Midrollers

After 3000 hours of pan scraping - like new with no track damage.

Rubber Wheels

After only 347 hours of pan scraping - visible excessive damage and uneven wear. Wheels have to be replaced to prevent further track damage.

AgriTraxx® Midrollers

Thermal image showing polyurethane's highest temperature at 117.0 °F, this lower temperature extends both rubber track and wheel wear-life.

Rubber Wheels

Thermal image recorded in the same usage interval as in AgriTraxx® Midrollers, indicating rubber's highest temperature at 161.1 °F.

Core Exchange Program for

- AGCO Challenger® MT800
- AGCO Challenger® MT700
- Case Rowtrac™
- Case IH Quadtrac®
- John Deere® 8RT
- John Deere® 8000T
